1. Executive Summary
Despite drop in sales SMA generated a positive EBIT before accrual for personnel adjustments and consolidation of Zeversolar in Q1-Q3 2013

> 4.0 GW inverter output sold (−32.6%)

> €709 million in sales, thereof 40.3% from project business. Decline in sales (−40.7%) mainly due to a slow market development and accelerated price pressure

> 69.3% (Q1-Q3 2012: 53.4%) of sales outside Germany underpins SMA’s unique global footprint

> Adj. EBITDA\(^1\) of €47 million (Q1-Q3 2012: €164) despite strong decline in sales; this equals 6.6% of sales (Q1-Q3 2012: 13.7%)

> Net Working Capital ratio\(^2\) increased to 32.4% as of LTM sales due to international business, postponed projects and the integration of Zeversolar

> Net Capex amounted to €44 million (Q1-Q3 2012: €81 million), including €18 million for capitalized R&D projects (Q1-Q3 2012: €15 million)\(^3\)

> Solid balance sheet structure with equity ratio of 57.7% and net cash of €300 million

> SMA increased the majority shareholding in Zeversolar to 89.2%

---

**SMA set new sales and earnings forecast for 2013 and 2014.**

1. Q3 2013: Before accrual for personnel restructuring charges of €20 million
2. New NWC ratio forecast 2013: 24% - 28% as of LTM sales (old NWC ratio forecast 2013 22% - 26% as of LTM sales)
3. New Capex forecast 2013: €60 million (old Capex forecast 2013: €80 million)
4. Sales 2013: €0.9 - €1.1 billion, EBIT 2013: €80 to €90 million (old sales 2013: €0.9 - €1.3 billion, old EBIT 2013: break even in best case before restructuring charges); Sales 2014: €1.0 - €1.3 billion, EBIT 2014: €0 to €20 million

Negative Free Cash Flow due to drop in earnings, increased working capital and poor performance of Zeversolar business

SMA initiated different measures to reduce Net Working Capital and restructure Zeversolar until end of 2014.

1. Q3 2013: Before accruals for personnel restructuring charges €20million
2. Before time deposits and acquisition of Zeversolar
2. Highlights
Volume growth in the global PV-inverter market is mainly driven by strong demand in Asia and North America.

<table>
<thead>
<tr>
<th>Global PV Inverter Market¹</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>31 GW</td>
<td>Global demand is mainly driven by subsidy programs</td>
</tr>
<tr>
<td>29-34 GW</td>
<td>High volatility and high market fragmentation</td>
</tr>
<tr>
<td>35-40 GW</td>
<td>Increased protectionism (e.g. local content, certification, etc.)</td>
</tr>
</tbody>
</table>

- Unsubsidized markets will gain momentum in the mid-term
- New markets and customer groups
- Different investment rationale

The value of the global PV-inverter market will increase in the best case scenario in 2014.
SMA’s global market share is impacted by the regional shift in demand – China and Japan have high market entry barriers

---

**Market Share & Development**

- **Comment**
  - SMA maintained its strong position in Europe due to innovative products for residential and commercial applications
  - SMA is clearly the market leader in North America mainly due to its superior turn-key solution for utility-scale solar projects
  - SMA entered the Japanese solar market and is the most successful international inverter brand in Japan
  - SMA acquired Zeversolar to gain access to the fast growing Chinese solar market

▶ SMA’s dual brand strategy (SMA / Zeversolar) will help the SMA group to serve the entire solar market – from the solution business to the value segment.
SMA Smart Home and e-mobility for more independence

Customer benefits

> **Easy to use** – the Sunny Home Manager can be accessed via PC or smart phone

> **Intelligent planning for automatic load control** – using local weather forecasts to predict PV power generation

> **Storage integration** – through the integration of battery storage into the intelligent energy management, self-consumption can be maximized

> **Future-proof** – to enable seamless integration of various components and electrical vehicles in the intelligent energy management system, SMA works closely with renowned manufacturers
New sales channels to increase market penetration

**New Sales Channel with IKEA (UK)**

> Customers will be able to buy PV systems with SMA inverters Sunny Boy HF series at each of the UK’s 17 IKEA stores

> IKEA offers a full service package, including consultation and design service as well as installation, maintenance and on-going monitoring of the PV system

**New Sales Channel with RWE (GER)**

> Customers will be able to buy PV systems with SMA inverters Sunny Boy 2100 TL and Sunny Boy 5000 TL via RWE

> RWE offers a full service package, including consultation and design service as well as installation, maintenance and on-going monitoring of the PV system
3. Financials
Project business partly compensated declined distribution business

Nearly 80% of lower end of forecast already reached by end of Q3.
Sales affected by changes in European market environment

### 9 months - Highlights

- **Q1 - Q3 2013 sales figures were impacted by subsidy cuts**
- **Key sales drivers were the Sunny Tripower as well as Sunny Boy**
- **Important international markets were the U.S., Australia and Benelux countries**

### 1. Executive Summary

- SMA is a bankable and trustworthy partner for utility-scale PV projects
- SMA offers turn-key solution from the DC feeders to the medium voltage collection loop
- PPS benefitted from strong foreign business
- Most important markets were North America, Japan and Thailand

### 2. Highlights

- Commissioning of solar plants, repair and maintenance contracts were main sales drivers
- Most important markets were European PV-markets, U.S. and Thailand

### 3. Financials

- Railway Technology increased its global footprint with a subsidiary in Brazil
- Most important markets were Europe and Brazil

### 4. Outlook & Summary

- Business in China started slowly in Q1 - Q3 2013
- Sales were almost exclusively generated within China

Ongoing measures to boost productivity and savings in material costs could not compensate for the strong decline in sales.

Material expenses accounted for 67.2%; personnel expenses for 18.7% and other expenses for 14.1%.

SMA invested €76 million in R&D in the first nine months 2013 (incl. capitalized R&D projects).

SMA further expanded development co-operations and intensified the measures to protect intellectual property.

Reduction in R&D expenses result of a decrease in personnel expenses (Bonus for employees and reduced head counts) and other expenses.

Reduction in SGA expenses result of a decrease in personnel expenses (bonus for employees and reduced head counts) and other expenses.
Without consolidation of Zever Solar and one-offs SMA reached a break even result during the first nine months of the year

Thereof Zeversolar € million: 20

SMA set up measures to reduce Net Working Capital until the end of 2014.

---

1. New NWC ratio forecast 2013: 24% - 28% as of LTM sales (old NWC ratio forecast 2013 22% - 26% as of LTM sales)
2. Net Working Capital = Inventory + Trade Receivables - Trade Payables (no advanced payments included)
## High Net Working Capital burned cash flow profile

<table>
<thead>
<tr>
<th></th>
<th>Q1 - Q3 2012&lt;sup&gt;1&lt;/sup&gt;</th>
<th>Q1 - Q3 2013&lt;sup&gt;1&lt;/sup&gt;</th>

<td>-122</td>
<td>13</td>
</tr>
</tbody>
</table>

1. In € million, Q1 - Q3 2012: with rounding difference
2. Reduction in Capex due to no additional construction projects
3. Acquisition of Zeversolar
4. Outlook & Summary
SMA will only reach the lower-end of the sales forecast in 2013 due to weaker than expected European demand

Comment 2013 figures

> Sales drop of more than 50% in the MPS-business as a result of the harsh subsidy-cuts in key European markets

> Strong project business in non-European markets will mostly compensate PPS sales decline in Europe

> High price pressure across all business divisions

> No year-end rally expected in Q4-2013

SMA’s management board targets sales of €0.9 billion to €1.0 billion in 2013.

1. SMA’s management board targets sales of €0.9 billion to €1.0 billion in 2013.
2. MPS: Medium Power Solutions
3. PPS: Power Plant Solutions
4. Former sales forecast 2013: €0.9 - €1.3 billion
SMA’s 2013 earnings are heavily impacted by one-off items as well as operating losses in the MPS\(^3\) and Zeversolar divisions

**Comment 2013 figures**

> 2013 one-off items will total between €60 and €65 million. Thereof,  
> €25 million accruals for head-count reduction  
> €30 million value adjustments for SMA inventory  
> €5 million value adjustments for Zeversolar inventory and accounts receivables  
> Zeversolar’s operating loss\(^4\) of €15 million is mainly due to high price pressure and sales drop in international markets  
> The operating loss\(^4\) of €30 to €35 million in the MPS\(^3\) business is the result of the sudden drop in European sales

The SMA Managing Board estimates a group loss of between €80 and €90 million in 2013\(^2\); thereof €45 to €55 million are cash-effective.

---

1. SMA estimates  
2. Former EBIT forecast 2013: break-even result before restructuring charges in the best case; a loss is not ruled out.  
3. MPS = Medium Power Solutions  
4. Before one-off items
The SMA Managing Board estimates sales of between €1.0 billion and €1.3 billion in 2014.

SMA Sales Forecast 2013 and 2014

### Comment

- Stable PPS\(^3\) business due to solid positioning in key solar utility markets.
- Strong sales increase at Zeversolar due to cost and quality improved products for international markets and new products for the domestic market.

SMA will introduce the Sunny Boy Smart Energy and the first next generation products in 2014.

---

1. SMA estimates
2. MPS: Medium Power Solutions
3. PPS: Power Plant Solutions
SMA will return to profitability in 2014

Comment

The net negative earning effects 2014 will be over-compensated by the restructuring effects already initiated in 2013:

- €60 to €65 million one-offs from 2013
- Up to €40 million savings in personnel expenses
- Up to €30 million Cost-out program
- Up to €20 million increase in productivity

The SMA management board initiated various restructuring measures that will become earnings-effective in 2014 and years beyond.
SMA defined the strategy last year and is already in the process of implementation

1. Development of new markets to increase sales
2. Process improvement to increase profitability
3. Dual brand strategy to increase market share

SMA is the specialist in the field of PV-system technology and the world-market leader. With a net cash position of more than €300 million SMA is financially rock solid.¹
Energy that Changes
