

SMA Solar Technology AG press release

SMA ranks 6th in the Global 100 Index of the world's most sustainable companies

Niestetal, January 22, 2025 – SMA Solar Technology AG (SMA/ISIN: DE000A0DJ6J9/FWB: S92) has once again improved its excellent ranking in the renowned "100 Most Sustainable Corporations in the World Index" (ticker: CKG100) in 2025. In 2024, SMA was included in the Corporate Knights' index for the first time and instantly secured the 10th position. In this year's ranking, the media and research company specializing in sustainability has ranked SMA 6th in the index of the most sustainable companies worldwide. SMA stands out as the top performer in the Corporate Knights peer group, the sector and the industry. Corporate Knights compiles the Global 100 Index every year based on comprehensive research into the sustainability performance of companies and their products.

"We are delighted that the experts at Corporate Knights have once again included SMA in the top group of the world's most sustainable companies," said Jürgen Reinert, CEO of SMA. "We are particularly proud that, in this independent and purely fact-based ranking, we managed to climb four places compared to the previous year. The excellent ranking is a nice acknowledgment of our achievements to date and inspires us to continue pursuing and developing our ambitious sustainability goals."

According to Corporate Knights, the Global 100 companies represent the top group worldwide in terms of sustainability performance. To compile the 2025 ranking, Corporate Knights assessed 8,359 global companies on the basis of up to 25 sustainability indicators such as sustainable sales, sustainable investments, consideration of sustainability goals in management board remuneration and diversity in management and supervisory bodies. The key figures were weighted differently in order to reflect the impact profile of each sector individually.

About SMA

As a leading global specialist in photovoltaic and storage system technology, the SMA Group is setting the standards today for the decentralized and renewable energy supply of tomorrow. SMA's portfolio contains a wide range of efficient PV and battery inverters, holistic system solutions for PV and battery-storage systems of all power classes, intelligent energy management systems and charging solutions for electric vehicles and power-to-gas applications. Digital energy services as well as extensive services round off SMA's range. SMA inverters installed throughout the

world within the last 20 years with a total output of approximately 132 GW help avoid the emission of more than 70 million tons of CO₂. SMA's multi-award-winning technology is protected by more than 1,600 patents and utility models. Since 2008, the Group's parent company, SMA Solar Technology AG, has been listed on the Prime Standard of the Frankfurt Stock Exchange (S92) and is listed on the SDAX index.
